👤 PROFILE

Highly motivated and recently graduated computer programmer with a solid foundation in web and application development. Completed a two-year computer programming program at GTCC, during which I gained extensive hands-on experience working on various projects. Proficient in Java, JavaScript, Python, HTML, CSS, WordPress, PHP, SQL, and Swift for mobile application development. Demonstrated ability to create websites, applications, and phone applications utilizing a range of programming languages and technologies. Seeking an internship or entry-level position to apply and expand my technical skills while contributing to a dynamic and innovative team.
